Benefits

- Presents the opportunity to access high quality training
- Equips your staff to learn new skills or enhance their existing skills
- All courses have PAS requirements included
- Enables your workforce to be ready to meet the standards required
- Courses may compliment your existing apprenticeship training

If you work for one of Efficiency North's social housing landlord members, you are eligible to join the EN:Connect Retrofit Forum:

www.energycnorth.org/en-connect a best practice forum where funding and technical solutions are disseminated.

The Installation Assurance Authority will give a contribution to EN:Able Communities for every person completing a course by June 2024.

All contributions will be used in collaboration with Efficiency North's social housing landlord membership to support their employment and skills programmes, and to support the development of our courses in damp and mould.

Course funding timeframes.

All the courses either have to be completed, or have certain elements completed by 30 June 2024 due to funding timescales.

For more information on the process, and the individual course start and required completion dates, please contact:
julie.cullen@energycnorth.org

Complete course details can be found here:

<https://www.theiaacs.co.uk/training>

You will find all the details you need on each course including course pre-requisites, course specifications, **available funding status*** and upcoming course dates, along with the ability to book onto your preferred course with The IAA Commercial Services.

*** Please refer to the website for more details.**

The Installation Assurance Authority

The Installation Assurance Authority Commercial Services (IAA CS) delivers an array of commercial activities and services including training in the Energy Efficiency Sector, Retrofit Coordinator Services and Training, Building Testing Services including Ventilation & Air Tightness Testing and Training.

The IAA CS is part of the CIGA Group, which consists of The Installation Assurance Authority (The IAA) and the Installation Assurance Authority Commercial Services (The IAA CS).

The IAA CS training courses are designed to equip students and professionals with the knowledge and skills necessary to excel in their energy efficiency or retrofit sector career.

EN:Able Communities CIO

EN:Able Communities is the charity arm of Efficiency North Holdings. EN:Able Communities. is working with EN:Able Warmer Homes

The charity has a strong track record of supporting communities, training and employment, working in partnership with social housing landlords in Northern England. We are passionate about enabling tenants and residents to gain skills for employment and helping to improve the prosperity of their communities. EN:Able Communities is also passionate about supporting the skills development of colleagues in the social housing sector.

This IAA training offer enables these passions to be combined for the
